

Final Internship Report (Aug 2017- May 2018)

IIT Palakkad has concluded its final internship placement process for the academic year 2017-18. Like previous year, the Institute has continued placing students for their internship assignments in premier academic Institutes like IITs, IISc and Universities abroad. It is also a great starting experience for the Institute in inviting Industries for internship recruitment process this year. A total of 37 industries participated, and 48 industrial internship offers were made across the four streams. In addition, 21 industrial internships were assisted offline. The students of IIT Palakkad proved their merit through their performance in all aspects during the interview process.

Notable internship recruiters included GE, Daimler, TCS, Daikin, Timken, Titan, etc. Arista Networks from Bangalore offered the highest stipend of Rs. 45000 per month + Rs. 50000 for relocation allowance. Three students got overseas internship through the support of the Institute. 100% internship placement was achieved for CS-2015 and ME-2016 batches. The team will take forward the learnings from this year's process and strive to achieve better outcome in the coming season.

A detailed internship summary is given below.

Internship Offers	2015 Batch	2016 Batch
Industry offers	53	16
Academic offers	12	24
Total Internship offers	65/104	40/105
Total offers	65+40=105	

Domain wise split-up
